OVERVIEW

ANK's software development team brings strong expertise in building custom, scalable, and secure software solutions. Our capabilities span from requirement analysis and solution architecture to development, testing, deployment, and ongoing support. We focus on delivering software that is reliable, user-friendly, and aligned with business objectives.

Our development skill set covers web applications, mobile applications, cloud-based platforms, enterprise software, APIs, and system integrations. With deep knowledge of modern development frameworks, databases, cloud infrastructure, and security practices, our team helps organizations address challenges related to scalability, performance, and time-to-market.

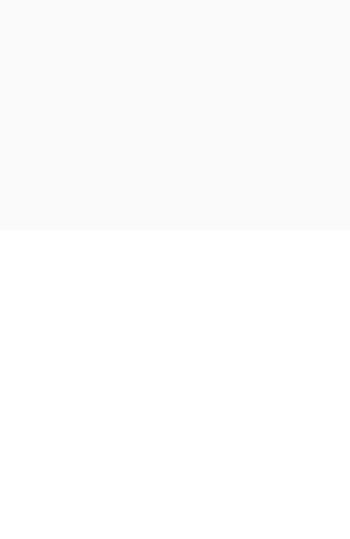

At ANK Design & Automation Solution LLP, we provide software development services for turnkey projects as well as discrete development, enhancement, and maintenance services for existing applications.

KEY CAPABILITIES

Web Application Development

CAD drafting, CAD Design for parts mechanical designs & manufacturing.

Mobile Application Development

3D Modelling Services for 3D CAD Design, Tool Parts, Prototypes, & 3D Printing.

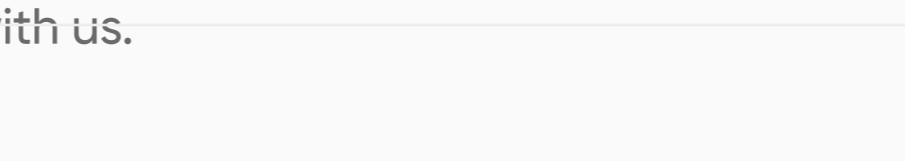

Enterprise Application Development

Design Help with new invention ideas, invention prototypes & inventor design.

3D Rendering

HDR Rendering 3D Visualization, Furniture Rendering & 3D Product Rendering.

Cloud & SaaS Development

Product Design for Concepts, Industrial Design & Medical Devices

UI/UX Design & Development

Mechanical Engineering & Design, FEA, Electronics, & PCB Programming.
